NUTRITION API

The screenshot shows the RapidAPI interface for a 'Demo Project'. A GET request is sent to `https://mystoreapi.com/catalog/categories`. The response is a 200 OK status with a JSON array of categories.

Request Details:

- Method: GET
- URL: `https://mystoreapi.com/catalog/categories`
- Headers: (None)
- Query: (None)

Response Details:

- Status: 200 OK
- Content-Type: application/json
- JSON Tree:

Key	Value
categories	365 items
Index 0	1 item
category	Aa
Index 1	1 item
category	Aa supplements
Index 2	1 item

JsonPath expressions e.g. `$.store.book[0].title`
